SKILLS

HTML5 | CSS3 | JavaScript | React.js | Tailwind CSS | Bootstrap | Material UI | Axios | Git and Github |
Vercel | Netlify | Cypress | C, C++, Java Programming language(Basic)

PROJECTS

AI Assistant(Virtual Assistant) 

- Developed a conversational assistant capable of answering queries and performing task using Google Gemini's generative AI.
- Build a responsive frontend with React.js.
- Implemented features like context-based replies, error handling, and API integration for real-time results.
- Deployed on Netlify for easy access and sharing.

GitHub - <https://github.com/Ashishmehtataj/AIProject> 

Personal Porfolio 

- Designed and developed a responsive personal portfolio to showcase projects, skills, and experience.
- Used Bootstrap for fasted layout design and consistent styling.
- Integrated Typed.js for dynamic typing animation and AOS(Animate on Scroll) library for smooth scroll-based animations.
- Linked Github resositories and live demos for recruiters to easily access work samples.
- Deployed on Vercel for professional presentation.

GitHub - https://github.com/Ashishmehtataj/My_Portfolio.git 

Food Recipe Search 

- Build a recipe search application that fetches meal details from TheMealDB API based on user input.
- implemented API calls with Axios for efficient data fetching and error handling.
- Implemented search functionality to display recipe name, instructions and image dynamically.
- Designed a clean and responsive UI using react.js for better user experience.
- Deployed on Vercel for easy access and sharing.
